Announcement Content	
Explanations	

Considering the intense questions received from our investors, it was deemed appropriate to make the following disclosure.

The machinery and equipment group of the 600 MW capacity cell production facility, which is the first phase of our company's "Solar Panel Cell Factory" to be established in Izmir Aliaga Organized Industrial Zone, has been loaded and has departed for Turkey by sea, and with normal planning, it is expected to reach the Izmir Aliaga port within the next week ,.

It is anticipated that the first phase cell production facility with a capacity of 600 MW will contribute to commercial production within the first 3 months of 2024, after the assembly process.

As developments on the subject, necessary information will be shared with the public and our valued investors.

It is announced to the public.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
