Explanations	

United Metal Workers' Union, with the decision of the Union's General Executive Board dated 07.10.2025 and numbered 582, announced that a strike decision was taken at our Company's panel production facility at the address of Gebze OSB Tembelova Area 3200 Cadde N3207 Gebze-Kocaeli and that the strike decision would be implemented on 22.10.2025 and notified our company of the decision.

Production at the Gebze facility is currently continuing uninterrupted, and the decision to strike does not mean it will be implemented. Negotiations regarding the matter are ongoing.

Our company's Wafer, Cell, and Panel Integrated Production **Facility in Aliağa, Izmir, is not subject to the strike decision, and production continues uninterrupted and at full capacity.**

Our company is also evaluating alternative methods such as production collaboration models (OEM (Original Equipment Manufacturer) and outsourcing of production processes) in order to meet the increasing business volume and additional orders that will exceed the current capacity by 2025, and is diversifying its production capabilities both domestically and internationally accordingly.

No changes are anticipated to the company's year-end targets.

Information will be provided about developments on the subject.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
