<b>Explanations</b>	

Our incentive application for the production of Photovoltaic Solar Panel (wafer, cell and photovoltaic solar panel, starting from silicon ingot production), the construction of which started in Aliğa Chemical Specialization and Mixed Organized Industrial Zone (ALOSBi), has been accepted within the scope of Project-Based State Aid for Investments. It was published in the Official Gazette dated 15.10.2022 and numbered 31984 and announced on the Public Disclosure Platform on 17.10.2022.

Regarding the first phase of the investment to be made within this scope, 1.1 billion Turkish Lira Investment Committed Advance Loan (YTAK) originating from the Central Bank with a total maturity of 10 years, 2 years of which is non-refundable, has been approved, and the loan has been used as a single tranche as of today. Due to the fact that the investment meets the domestic machinery usage criteria in line with the YTAK usage criteria, a 25 basis point interest reduction has been applied in the loan interest and the interest rate of the loan is 9.25% annually.

It is announced to the public with respect.
